

Product Data Sheet

Presto™ Cornice

Simple and subtle, Gyprock Presto delivers a clean modern finish similar to square setting. Simple to cut and fast to install this functional profile features a 90mm flat face that creates a 15mm step along the ceiling.

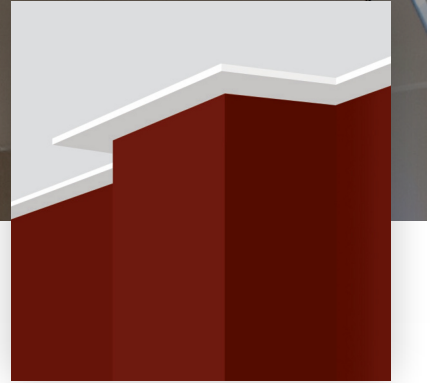

Product Overview

While cornice effectively bridges the junctions between walls and ceilings, its purpose extends beyond function, providing the perfect finishing touch to the aesthetic harmony of a home.

The clean simple lines of Presto make a great alternative to the look of square setting, Presto delivers extra unobtrusive detail to a room whilst still maintaining a feeling of space. Balanced with other interior design features such as architraves, skirting and even door hardware, Presto cornice can help make a clear style statement in a home.

Typical Applications

Presto's clean and simple profile and ease of installation make it an ideal choice for modern homes and multi-residential projects.

Product Manufacture

Presto Cornice is manufactured by CSR Gyprock in Australia to stringent product specifications.

Product Handling

Transportation and manual handling: Refer to the Gypsum Board Manufacturers of Australia (GBMA) website for recommended OH&S practices.

Storage: Protect plasterboard and cornice from weather and moisture. Avoid products sagging by storing horizontally, supported on a level platform or full-width support members spaced at max. 600mm centres.

Health and Safety

Safety Data Sheets are important documents in the construction industry and assist in the continuing focus on occupational health and safety on and off sites.

Installation Instructions

Installing to Standards

AS/NZS2589: Gypsum linings – Application and Finishing outlines the procedures for the installation and finishing of Presto cornice in conjunction with additional details contained in Gyprock Technical Literature.
